FOR IMMEDIATE RELEASE:

ARH, Inc. (formerly A. R. Hungary) is proud to announce its new AFS510 ten-print fingerprint scanner and PR304 mobile e-passport reader supporting true single-step OCR + RFID reading.

Budapest, Hungary – September, 2009. Based on vast previous experience with image processing, OCR and barcode reading technology, ARH, Inc. has developed the AFS510 ten-print fingerprint scanner. The 4+4+2 finger reader is intended for professional use and complies with all related international industrial standards including support for WSQ, sequence check and fingerprint segmentation. Official product launch is due in autumn 2009.

The new PR304 mobile e-passport reader is based on previous mobile readers of ARH, Inc. but new design offers that level of ergonomics and functions like never before. Key functions: MRZ OCR, barcode reading, fully BAC/EAC capable RFID reader, SmartCard support, built-in PC running desktop Operating Systems (Windows XP, Vista) and true one-step OCR+RFID reading.
